RE: Eklutna Tailrace, fisheries maintenance plan

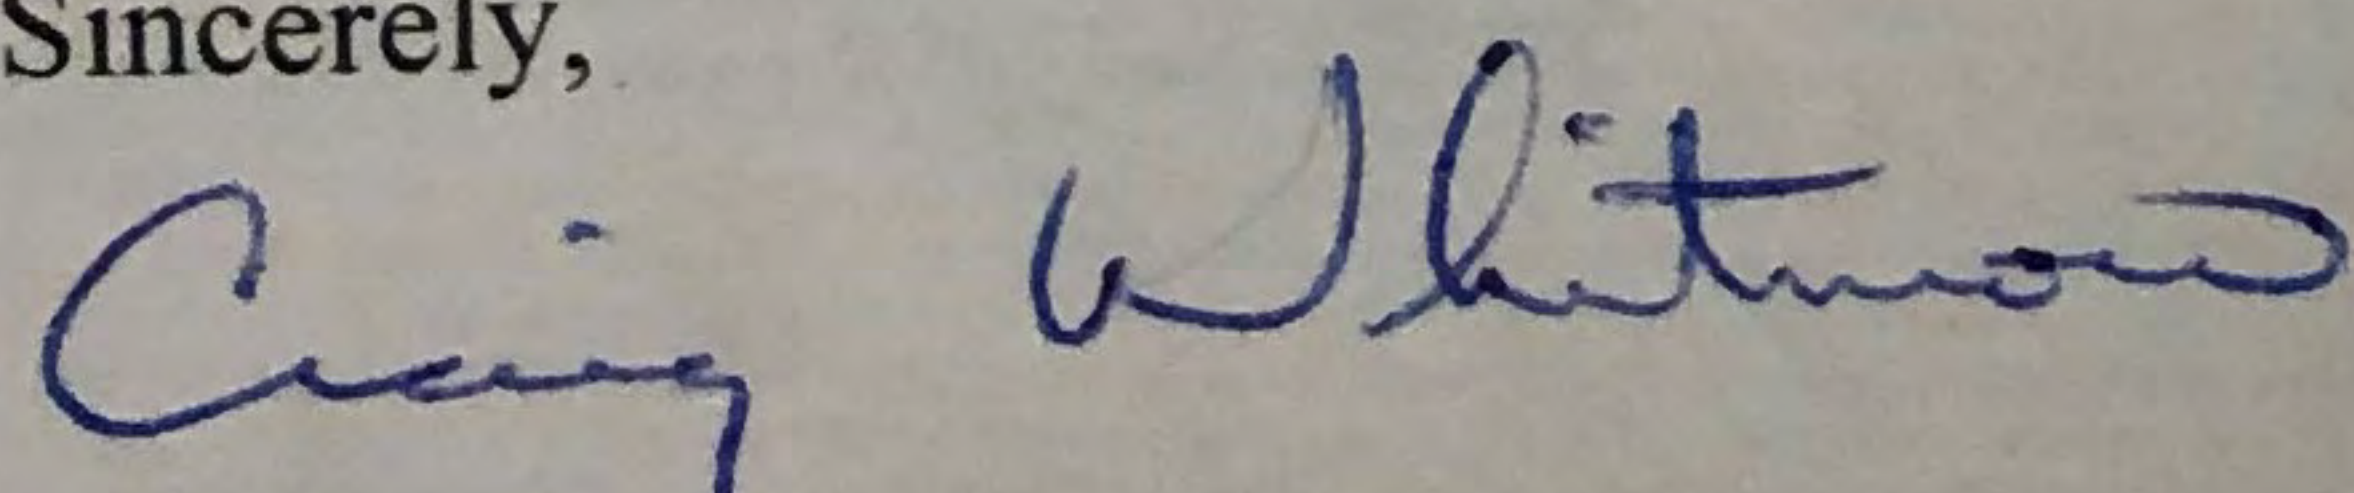

Dear Mr. French,

The Department of Fish and Game, Sport Fish Division is planning to provide basic site maintenance services at the Eklutna Tailrace fishery during the 1997 season. Portable toilets and a dumpster will be installed on site the end of May and serviced until removal in early September. In addition, appropriate signage will be installed, and as during the 1996 season two fish cleaning tables will be placed on site

The Department of Fish and Game has made no formal commitment to make permanent structural improvements at the Eklutna site. However, if a decision is made by the Department to make improvements, we will be happy to meet with you and all parties you feel appropriate to work out the details. I will keep you informed regarding our plans.

Please call if you have any questions.

Sincerely,

Craig Whitmore
Area Biologist
Division of Sport Fish
