Write your comments on the Draft Fish and Wildlife Program here:

1. I oppose half-measures. The 1-mile dry proposal is a short-term expedient with long-term consequences. It will be seen as a costly mistake. Rip the bandaid off (work to remove the dam etc) and adjust to the consequences.

2. In concept the Eklutna/Trount Unlimited proposal to remove the dam without public investment is one I favor - but I have questions - what does it mean 'replace' the power from the hydro project?

3. I did not see any forecasting of instaral lake levels under different climate change scenarios.
